

Lost Chord UK is a constantly evolving charity dedicated to improving the quality of life and well-being of people living with dementia and other complex health conditions both in the care home and community setting. Through a variety of different types of interactive music sessions we increase the self-esteem, general awareness and overall wellness of ALL who attend.

The demand for interactive community music sessions is higher than ever and with that demand comes even greater financial pressure. If you would like to find out more about Lost Chord UK's charitable work or you wish to make a donation, please visit our website.
